# CLEVERMODE

## 1. TEST

Kyoritsu KEW6205PRO delivers fast, accurate testing with zero complexity.

- One-button testing, no menus, no confusion
- Pass/Fail indicator lights
- Battery powered with 6 AA batteries
- Built-in WIFI uploads results instantly
- Fully compliant with AS/NZS3760-2022
- Rated to 15 Amp for caravans, boats and heavy-duty leads

## 2. UPLOAD

Clevermode App is easy to use

- Syncs directly with the tester and printer
- Records all item data and automatically increments tag numbers
- Scans previous tag QR codes, so no typing
- Generates csv files for reporting
- Works on iOS and Android

### 3. PRINT

Clevermode CMP8004 Printer produces professional tags printed instantly:

- Lightweight, portable, battery powered
- Ribbon-free thermal printing
- Custom logo printed from the app
- easy on the go logo changing ability
- QR barcode support for fast records
- Prints all tag type, regular, mini, rcd, new-to-service

## 4. REPORT

Clevermode Report Software is fast reporting:

- Converts csv results into a clean PDF instantly
- Foolproof interface
- Perfect for audits and compliance records
- in-app reports and/or software for your PC
- Reports include Appliance Register, Fails, RCD report with trip times, and Totals report
